

# GUIDED TOUR PREVIEW

## Heartland Series: Singapore River Walk

**Synopsis:**

The Birthplace of modern Singapore. An Artery of commerce. The island's Lifeline. These are but a few of the various titles bestowed upon our beloved Singapore River. As far as rivers in Singapore goes, this is the Grand Dame.

Life along the Singapore River has been present ever since the early beginnings of the city-state. Land around the banks served as a place of disembarkation for new immigrants, a commercial trading port, a home for the workers, an office for business owners, and even as a playground for young children. Today, much has changed, but the memories remain.

Join us in a journey of discovery, as we take you on a walk upstream. By listening to the history of the Singapore River, you will discover the development story of Singapore. This is a walk along 3 quays and across 3 bridges (though we will be seeing many more), through former warehouses, factories, villages and temples. The tour will end off with a leisurely cruise back down the river into the heart of the Marina Bay.
